When I do Tarot birth cards. I have come up with a system that I have found to be accurate and encouraging if you are open to what the spiritual realm is offering you.

Tarot birth cards reveal the mysteries of what our life's journey is about, and the positive and challenging energies along the way.

We all have three birth cards. The 1st birth card is the Life's Journey card. The 2nd birth card is the Positive Energy card. The 3rd birth card is the Challenging Energy card.

We also all have a 4th card called the Personal year card. This will be the yearly guiding card.

Life's Journey Card

- What your life's journey is
- Where your personality stems from
- Your soul's purpose

When I calculate this number. I add the full birthdate across. For example: April 6th, 1973 becomes $0+4+0+6+1+9+7+3=30$. This number is over 21. Therefore, I add and reduce to a single digit. $30=3+0=3$. My Life's Journey Card is the Empress card.

Positive Energy card

- Ways to approach and/or behave that'll help along the journey
- Skills/abilities for problem-solving

When I calculate this number. I add the birthdate to the number 9. For example: April 6th, 1973=3+9=12. Since this number is 21 or under, we do not reduce. My Positive Energy card is the Hanged Man card.

Challenge Energy card

- Big lessons we need to learn
- Personal challenging energies

With this number, 1,2,&3 already have their Challenge card

Numbers 4-8, I add the number of the two cards. For example: 4 is card 4 & card 13. Which = 17, the star card.

Number 9, I divide by 3 and then add 9. $9/3=3+9=12$ the Hanged Man.

Personal Year card

- Yearly guiding card

With this number I add the current year to the month and day of birth.

$2+0+2+4+0+4+0+6=18$. Again, this number is 21 or under, so I leave it as is.

My personal year card is the world card.
