

What is Paganism?

Paganism is an umbrella term for any belief, religion, and/or lifestyle that is not of that Abrahamic faith. (Christianity, Judaism, Islam)

With such a wide variety under the time of Paganism, it can be very easy to get confused as to what is what and who is who. With this model, you can see that someone can be a pagan but not be a witch. Someone can be a witch and not practice witchcraft. And so on...

Most Pagan lifestyles are very nature-oriented, and in-tune with the cycles of life, Mother Earth and the universe. Just to name a few.

Here are just a few simple meanings to things that fall under the term Paganism.

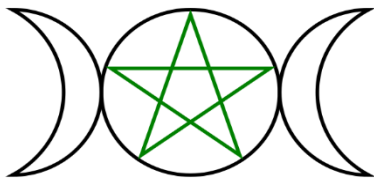

Atheism: No belief in the existence of any deities.

Witchcraft: The use of magic/supernatural powers

Spirituality: Life of the spiritual path that you choose

Wicca: Modern religion based on Spiritual living
